

Planning Guide - Walk the delivery path

The number one reason appliances are returned after delivery is sizing problems, so it's important to make sure your new appliance will fit through every point—from the delivery truck to your installation space. A measurement off by as little as 1/4-inch can turn the excitement of your new appliance purchase into a major inconvenience. Double-checking your measurements will help to ensure a smooth purchase and delivery. These measurements are not required but are suggested to ensure you select the right product.

warnersstellian.com

An appliance returned because it will not fit will cost you a delivery fee and possibly a restocking fee. For questions or concerns about dimensions, please contact a salesperson.

Unsure about measuring? Our in-home, pre measuring service is only \$129.99

Write down the dimensions of your appliance

Appliance Model #	Height	Width	Depth

Write down the dimensions of the installation space

Height	Width	Depth

Compare these dimensions to make sure your appliance can be installed.
Don't forget to measure the space needed for your appliance door to open!

Walk the path of the delivery

Starting outside of your home and walking the path of delivery, measure the following areas to make sure your appliance can fit through them.
Don't forget to account for door knobs, latches, shelves and other wall-mounted items.

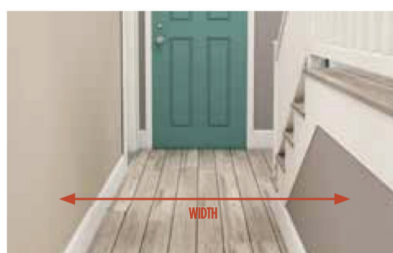

INSTALLATION SPACE

GATE

FRONT DOOR/DOOR JAMB

HALLWAYS

KITCHEN ISLAND

STAIRWAY

Measure any exterior doorways.
The installers can remove the doors
from the hinges if necessary.

Is there an alternative path through a garage,
patio or basement?

☐ Yes ☐ No

Is there a safe path to the front door
clear of snow or other debris?

☐ Yes ☐ No

FRONT DOOR/DOOR JAMB

GATE

Measure any interior doorways. Sometimes
interior doors are narrower than exterior doors.
